

the P&H CASTERS NEWSLETTER

July • 2006

By David Hicks • President & CEO

P&H IS PROUD TO ANNOUNCE WE HAVE BEEN AWARDED U.S. PATENT NO. 7,011,317 FOR OUR POLY-U® LINE OF WHEELS!

This patented design results from years of research and development on actual end-use of our Poly-U® products with our customers and their mobile equipment.

Only through our extensive testing, quality control, engineering, manufacturing and endless pursuit of perfection, can we offer such innovative products to our customers.

Our products are often imitated but never duplicated. So don't risk failures in the field by buying imposters!

"Protect yourself with the highest quality of P&H Poly-U® patented products for your wheel and caster requirements."

- David Hicks, President & CEO

The Poly-U® wheel is available in TPE or TPU tread:

Sizes	Load Capacity (Pounds)	
	TPU	TPE
4" X 1 1/4"	225	175
5" X 1 1/4"	250	225
4" X 2"	600	350
5" X 2"	800	375
6" X 2"	1,000	450
8" X 2"	1,200	550

PRODUCTS • UPDATES • OTHER INFORMATION

Expanded Manufacturing

P&H Casters has expanded its USA manufacturing operations in Arlington, TX. Please visit our website www.phcasters.com or call us for more information.

New and Improved Products

1. New patented Poly-U® Friction Wheel which installs like a normal wheel and requires no adjustments in the field.
2. We also have Escalator Wheels in various styles that adapt to any escalator or walkway grid pattern.
3. Plastic & Steel Precision Bearing Yokes
4. Redesigned Anti-Static Wheel that dissipates any charge generated by a cart or human contact.

ONE LAST THING

Many things have changed in the past 36 years. One thing that has not changed is our commitment to our customers and to be the #1 wheel and caster supplier for shopping carts, material handling and other related mobile equipment.
